1. As set forth in the Bylaws, Rules and Regulations, and policies and procedures, an attending physician or another medical staff member designated by the attending physician must see all inpatients daily. As Nurse Practitioners are privileged, but not medical staff members, all care provided to hospitalized patients shall be overseen on a daily basis by a physician member of the medical staff who is ultimately responsible for the patient.

2. A Nurse Practitioner wishing to prescribe controlled substances must obtain an Indiana Controlled Substances Registration (CSR) and a Federal Drug Enforcement Administration (DEA) Registration.

3. Nurse Practitioners act as independent and interdependent members of the health team. Specifically, a Nurse Practitioner uses his/her knowledge and skills to identify conditions; diagnose health problems; develop and implement nursing treatment plans; evaluate patient outcomes; and collaborate with or refer to a practitioner in managing the plan of care.

4. A Nurse Practitioner’s responsibility to the patient includes recognizing his/her limitations and consulting or referring as necessary to other health care providers. Nurse Practitioners must function within the legal boundaries of their advanced practice area and must have knowledge of state and federal drug laws, confidentiality laws and medical records access laws.
