

AchieveWell Award

AchieveWELL is an award-winning, proven strategic process that provides a road map to the destination of a well workplace and recognizes excellence in the field of health promotion. AchieveWELL is divided into three levels: **Three Star**, **Four Star** and **Five Star**. Each level requires a set of standards to be achieved before a worksite can qualify. The standards are progressive from the Three Star Award through the Five Star Award. Recently, DCMH took the first step in the AchieveWell process and was approved for our Three Star AchieveWELL recognition.
